Hon. David Bucciferro, Mayor
Village of Scotia
4 N. Ten Broeck Street
Scotia, NY 12302

**Re: Village of Scotia
Corrosion Control Treatment Project
Engineering Services – Amendment #1**

Dear Mayor Bucciferro:

KB Engineering & Architecture, P.C. (KB Engineering) is pleased to submit this proposed Amendment #1 to provide additional Professional Engineering Services related to the design of the Village's Corrosion Control Treatment Project. As you know, we completed the project design and submitted for NYSDOH review on April 18, 2025, which would have provided enough time for their review and approval, bidding and construction completion by the December 19, 2025 deadline. Final NYSDOH approval of the plans and specification were issued on 10/29/2025, seven (7) months after the initial submission. This amount of additional time and effort was not foreseen in our original proposal, therefore we will need a contract amendment for additional work performed to date and additional work requested by the Village at the October 20, 2027 board meeting.

A. Base Services

We propose the following additional work for Task 2 below.

Task 2: Design Phase

1. Responded to three (3) additional rounds of NYSDOH comments with detailed letters and revised plans and specifications, as necessary. This included additional design for floats and alarms for potential groundwater entering the proposed manholes where the corrosion control injection will take place on the watermain at the wellfield, required by NYSDOH after a site inspection revealed minor amount of water in the fluoride injection manholes.
2. Project management over the additional six (6) months.
3. Attendance and presentation at one (1) village board meeting.
4. Anticipated attendance and presentation at two (2) public informational meetings.

B. Fee

For the services described in this amendment #1, KB Engineering proposes to complete the work for a lump sum fee amount not to exceed **\$15,500.00**, billed monthly on a percent complete basis.

C. Terms & Conditions

Our work under this Proposal shall be performed in accordance with KB Engineering's Standard Terms and Conditions, which were included with the original proposal and are still in full force and effect.

If you agree with this Amendment #1, please return an executed copy of this Proposal. If you have any questions, please feel free to contact me.

Sincerely,

KB Engineering & Architecture, P.C.

Douglas P. Cole, P.E.
Senior Director of Engineering

cc: Maria Schmitz, Village Clerk
Ryan Kedzior, Superintendent of Public Works

Enclosure: Standard Terms & Conditions

AGREED TO BY VILLAGE OF SCOTIA:

David Bucciferro, Mayor
