

Mayor Bucciferro called the meeting to order at 6:30 p.m.

PRESENT: Trustee Brown, Trustee Cook, Trustee Solotruck and Mayor Bucciferro
Trustee Gray present at 7:10p.m.

PRVILEGE OF THE FLOOR

Mayor Bucciferro opened the privilege of the floor at 6:32p.m.

Amanda Barone of 6 No. Holmes St; As a Village resident and a member of the LGBTQ+ community has mixed feelings regarding tonight's Pride Month resolution; happy the Village is recognizing Pride Month and its message of inclusion for all but disappointed to see it on the agenda for the June 12th meeting when we are halfway through the month. Also, concerned with the visibility of the Pride Flag in Collins Park; it is often tucked beneath another flag. Asked the board to consider a more proactive and outspoken support for the LGBTQ+ community; including an annual resolution in May along with a review of the location of the Pride Flag to see if there are better locations for display.

Laura Brown of 37 Washington Ave; Asked the board to please pause any plans to kill beaver in the lake; concerned board has not heard all information, there are alternatives to lethal measures that do work. Beavers are a keystone species providing ecological benefits to the lake and other species in the lake; park and lake are also for the enjoyment of wildlife. Suggested an expert provide an assessment of installing a beaver deceiver in the culvert pipe as a long-term solution. Offered to assist village in any way; suggested reaching out to other communities who have used such non-lethal measures.

Matt Brown of 37 Washington Ave; Uses the lake often, has not seen signs of beavers or the damage they are doing. Suggested spending money on remediation efforts as a better solution.

Mayor Bucciferro closed the privilege of the floor at 6:35p.m.

OVERVIEW OF LEAD SERVICE LINE PROGRAM

Reuben Hull of LaBella provided the following update to the board:

- The Lead Service Line Inventory is a federal requirement that needs to be completed by mid-October of this year.
- The EPA established the Lead and Copper Rule in 1990 to reduce exposure to lead and copper in drinking water. In 2021, the rule was updated with new requirements, including the requirement to develop a publicly available Lead Service Line inventory for every public water supply in the nation. As a result, all public water systems are required to complete an inventory of lead service lines by October 16, 2024.
- The Village has been diligent about identifying and upgrading the public side of the system. The inventory under the new rule requires identification of lead service lines and potential lead service lines on the private and public sides of the system, also known as service lines. Service lines are the part of the water system that connects the public water main in the street to the customer's meter, inside of the home/business.
- In general, any building constructed after 1986 would not have a lead service line, as New York State implemented a ban that took effect in 1986. Properties that were built between 1910s - 1940s would be the most likely to have lead services, if they have not been replaced for maintenance reasons. Developments that were built before and between those times will have varying expectations of lead service lines. The purpose of the inventory is to identify, as best as can be determined, which properties definitively have lead service lines, which are likely, which are unlikely, and which definitively do not.
- As the Village's consultant, LaBella Associates is completing Phase 1 of the inventory, by creating a GIS-based map with every water customer identified. LaBella also developed an on-line self-survey for customers to input information regarding their individual service line, with instructions on how to determine the pipe material on their side of the meter.
- In May, the Village sent a paper version of the on-line self-survey to every customer that is served by the Scotia water supply. The flyer that was included with water quality report provides three options for submitting a response: (1) Mail the survey to the Village, (2) place the survey in a drop box located at the Village Hall, and (3) use a QR code to submit the information electronically.

June 12, 2024

- As of the date of the meeting (June 12) LaBella had received 92 electronic submissions and 68 paper copies of the survey. The combined total of 160 responses represents 4% of the total customers, which is considered a good return for only one week in.
- LaBella will process the survey results over the next few weeks and enter the data as the basis of the inventory.
- As the inventory develops, LaBella will identify patterns and use predictive analysis to fill in gaps for properties that do not submit a response. LaBella will also prioritize customers that have more at-risk populations, which generally includes pre-schools, day care centers, and other properties with a higher percentage of children.
- It is important to note that the presence of a lead service line is not a cause for alarm, but rather an indicator of prioritization for later replacement.
- The data will be compiled over the summer and submitted to NYSDEC in October, to meet the prescribed deadline.
- What LaBella is requesting from the community leaders is assistance in public awareness of the importance of responding to the survey. LaBella anticipates that there will eventually be a requirement to implement a lead service line replacement program, and funding for such a program will be contingent upon the completeness of the inventory.

PUBLIC HEARING TO COMPLY WITH THE CITIZEN PARTICIPATION REQUIREMENTS OF THE CDBG PROGRAM GRANT APPLICATION PROCESS

Mayor Bucciferro opened the public hearing at 7:05p.m.

Mayor Bucciferro closed the public hearing at 7:06p.m.

RESOLUTION AUTHORIZING SUBMISSION OF A GRANT APPLICATION TO THE NYS OFFICE OF COMMUNITY RENEWAL (OCR) THROUGH THE 2024 CONSOLIDATED FUNDING APPLICATION (CFA) PROCESS

MOVED by Trustee Cook, seconded by Trustee Brown that

Whereas, the New York State Office of Community Renewal (OCR) is accepting applications from eligible communities to compete for funds available through the NYS administered Community Development Block Grant (CDBG) Program through the 2024 CFA application process; and

Whereas, CDBG is a federally-funded program that provides financial resources to assist in the development of viable communities by providing decent housing and suitable living environment by expanding economic opportunities, principally for persons of low and moderate income; and

Whereas, the Village of Scotia has held a public hearing to consider its infrastructure, public facility and economic development/community development needs and has identified the CDBG program as a grant resource to support community development initiatives; and

Whereas, the Village of Scotia plans to submit a CDBG grant application recognizing the OCR application process requires that the governing body of the applicant authorize the submission of the application and related actions; and

Therefore, be it Resolved, that the Village Board of Trustees hereby authorizes and directs that the Mayor or Village designated representative submit the application to OCR and to act in connection with the submission of the application, including execution of all required certifications and forms and to provide such additional information as may be required.

The question of the foregoing Resolution was duly put to a vote, the Authority voting as follows:
